The highly electrified condition of the house and its occupants was not discovered till a few days ago when Mr. Fletchered till a few days ago when Mr. Fletch-er had occasion to repair the gax fixtures. Every time he touched the plpe he felt a palnful stinging sensation which he could not understand, but the climax was reach-ed when he turned on the gas. Instantly there was a light. He was startled, he-cause he knew he had not used a match. He tried a second time and again the reand he, too, caused the gas to light. It was then found that every member of the family was as highly charged with electricity as the father. They called the family doctor for consultation, but he could not explain the electrification.
